## INTRODUCTION

On the 225 rolls of this microfilm publication are reproduced the compiled records that give the military service histories of units in volunteer Union organizations. The compiled records are card abstracts containing information relating to the stations, movements, or activities of each unit or a part of it, and frequently to its organization or composition, strength and losses, and disbandment. Sometimes the names of commanding officers, the dates the unit was called into service and mustered out, the terms of service, and similar information are included.

The compilation of records of service by military units of volunteer Union organizations was undertaken simultaneously with the compilation of the service records of volunteer Union soldiers. The work was begun in 1890 under the direction of Capt. Fred C. Ainsworth, head of the Record and Pension Division of the War Department. The abstracts were made from original muster rolls and returns in the custody of the War Department and from rolls borrowed from the Second Auditor of the Treasury. The abstracts made from the original records were verified by a separate operation of comparison, and great care was taken to ensure that the abstracts were accurate.

Most of the compiled records reproduced on this microcopy are arranged alphabetically by State or Territory. The remainder are for units that were not limited to any one State or Territory; among them are the U.S. Colored Troops, U.S. Volunteers, and U.S. Veteran Reserve Corps. The records are further arranged by organizational breakdown under each unit.

Most of the compiled records for each organizational unit are in jacket-envelopes bearing the title "Record of Events" and giving the name of the unit. Many of the cards contain abstracts of the record-of-events information as found in original muster rolls and returns. Also included are some cards showing the exact captions of the muster-in and muster-out rolls that were copied and the certifications by the mustering officers verifying the accuracy of the rolls. The jacket-envelopes for a few units contain no documents but do contain references to other units with which these units were merged. In some instances the references concern transfers of documents.

Preceding the jacket-envelopes for the organizational units there sometimes are envelopes containing general notation cards giving information relating to the units. Some of the notations are statements of determinations made by the War Department concerning the service of the units; others contain information that was found in original records other than muster rolls and returns.

There are some card abstracts made from returns that are not in jacket-envelopes. These abstracts were accumulated by the War Department to be interfiled with the regular abstracts but were not interfiled, for one reason or another. The usual reason was that the abstracts made from returns were compiled later than those from muster rolls and in some cases the War Department failed to complete the filing of them. The National Archives has collected all the unjacketed abstracts that could be found for each unit and has filed them immediately after the jacket-envelope containing related abstracts for the unit. A card labeled "Additional Card Abstracts of Records" has been placed at the beginning of each set of unjacketed abstracts to distinguish them from the ones that are in jacket-envelopes.

The National Archives also has compiled service records of the volunteer Union soldiers who served in the units whose service histories are reproduced in this microcopy. They consist of a jacket-envelope for each soldier, labeled with his name, his rank, and the unit in which he served and typically containing (1) card abstracts of entries relating to the soldier as found not only in original muster rolls and returns but in other original records such as hospital rolls, descriptive books, and lists of deserters; and (2) the originals of any papers relating solely to the particular soldier. In a few instances there are compiled service records for volunteer Union soldiers who served in units for which there are neither record-of-events nor general notation cards; consequently, there is no record of such units in this microcopy. These units generally served only for short periods (about 1 to 3 months) or failed to achieve a complete organization. There are card indexes that may be used to locate the compiled service record of a volunteer Union soldier. Most of the indexes and some of the compiled service records of volunteer Union soldiers have been microfilmed.

The compiled records showing the service histories of units in volunteer Union organizations reproduced in this microcopy, the compiled service records of volunteer Union soldiers, and the indexes to the latter are part of Record Group 94, Records of The Adjutant General's Office.

RECORD OF EVENTS.

The Co. left the Military Academy in Norfolk, Va. and joined the Regt. and came to Suffolk Va. by R.R. a distance of 23 miles on the night of Apr 14/65 and took shelter with the 21 Conn. Reg. for the balance of the night. Next day marched about one mile and pitched tents. At 12 o'clock at night 4 companies were called out and marched some seven miles through mud & water to a point near the Nansemon River where we were ordered to halt, and 14 men and a Corporal were ordered to work on a fort line called Fort Conn. The balance of the men lay down by the side of a road with mud and wet to the skin to their waste by finding quite a large stream on our march. Remained there some five days without shelter working on rifle pits (over)

and doing picket duty, when we rec'd orders to join our Regt. at Fort Dix near Suffolk. After joining the Regt. the same night we returned to Camp where we first pitched our tents. Next day the Regt. reported to Gen. Gettis Hd. Qrs. and pitched shelter tents and remained on picket duty for one day when 4 companies were ordered to Fort Com. One Comp. remained there, other three were sent back to the Regt. Next day the Regt. was ordered to Fort Mc Clellan. And after marching to that place some six miles through mud and rain, at 9 o'clock at night the Regt. was ordered to report to Genls.

Quarters again where we arrived at 12 o'clock at night. My company when called on to turn out next morning at 3 o'clock all present but two men that had fallen by the way tired out from fatigue and marching. Since then returned to our first Camp, struck tents and camped anew near Suffolk.

The health of the company during the campaign was good, and with the exception of one man who died on the march, as many were present and fit for duty on the arrival of the company at Savannah, as when it left Kingston on the 13<sup>th</sup> November. The discipline of the company considering that it is composed of men from some different regts., is as good, and perhaps even better, than that of other companies of equal numbers. The comp. is at present with the rest of the reg<sup>t</sup>. encamped about a mile from Savannah, & is drilling & recruiting in order to be in readiness for another campaign when called upon.

It left Atlanta on the morning of the next day - the 16, marched upon the main Augusta road, participating in the destruction of Augusta R.R. to a point about 8 miles beyond Corington. was reached on the evening of Nov. 23, 1864. For a few days before reaching Milledgeville the march was much delayed by a heavy rain. After passing Milledgeville large swamps were met with, having poor & single roads through them - those much obstructed by timber which the enemy had fallen across. The bridges were in most instances destroyed. The Div. to which this Co. & Regt. belongs, after reaching the Macon & Milledgeville R.R. was deflected towards Waynesboro - this Co. with the rest of the Regt. was thrown out as a Picket on the Waynesboro road while the rest of the Div. destroyed the Augusta R.R. It was then marched south eastward to the old Savannah & Augusta & upon this road direct to Savannah, forming part of the line of investment on the 11 Dec. 1864. On the morning of the 21 the rebel works were found evacuated & the Co. with the rest of the command, moved to the Kings Bridgehead & marched into Savannah the next day. It is now in camp one mile from the city.

RECORD OF EVENTS.

Since the last muster of this Company its station has been changed from Camp Campbell, St. Louis, Mo., to Franklin, Tenn. via Nashville, where at which place it was encamped - for a few days - Owing to the destruction of all Co records and books, at Brentwood, Tenn. by the enemy under command of General Forrest, March 25, it is difficult to render a muster roll which will correspond in minutia with the original rolls, but I have stated all facts to the best of my judgment and belief -

Apr 27. Orders received to march at 7 A.M. & returned to our old camp ground arriving about noon. Circular received from Maj Gen Howard that he was expecting orders from the General in Chief to march to this place to Richmond, via: Farmville, Jones Spring, Warrenton and Lawrenceville. All foraging will be stopped. What is drawn from the country will be purchased and carefully issued. it is the desire of the General in Chief that the march be a model one for propriety of conduct showing to the people that when there is no war we can obey the laws and respect private rights with jealous care. This Army is proud of its record. Let every officer and man do his best to keep it unscathed. Apr 28.
